

Simpler Recycling Legislation 2027

From 31st March 2027, businesses and non-domestic premises with less than 10 FTEs (full-time employees) must sort plastic, paper and cardboard, glass, metals, and food waste separately from general waste.

Are You Compliant?

- ✗ Do you have separate bins for each type of recyclable waste?
- ✗ Are your staff trained to dispose of waste correctly?
- ✗ Have you reviewed your current waste management practices?

If you answered no to any of these, your business may not be compliant.

What Happens If I'm Not?

Failing to follow the new recycling rules could lead to:

- Fines or penalties for improper waste disposal from your provider and the Environment Agency.
- Increased waste disposal costs due to non-compliance.
- Damage to your business reputation for not supporting sustainability.

How We Can Help You

Staying compliant with the new Simpler Recycling legislation doesn't have to be complicated. We're here to make the transition seamless for your business with:

- ✓ **Full Compliance Support**
We'll ensure your business meets all legal recycling requirements, taking the stress out.
- ✓ **Support and Guidance**
We offer clear guidance to help you understand how to separate waste correctly.
- ✓ **Waste Management Review**
Our team will assess your current waste practices and recommend cost-effective solutions to improve efficiency and save on costs.

Choose BSG Waste Today
